Number	name	Specifications	Material quantity	Remark
1	130 furnace Components	3 Temperature Zone / Maximum Temperature 1100°C Each temperature zone is 300mm long / Do not partition	Two sets of aluminum silicate sheets are compatible with an outer diameter of 130mm.	Quartz tube Add a 30mm diameter furnace plugs at both ends of the bore
3	130 Preheating Furnace assembly	1. Temperature zone/ preheating furnace temperature zone length Spend 100mm, temperature 300-400°C	Two sets of aluminum silicate sheets are compatible with an outer diameter of 130mm.	Quartz tube Add a 30mm diameter furnace plugs at both ends of the bore
3	130 Furnace Shell Components	Compatible with 130mm outer diameter quartz tube Q235	2 sets of sheet metal processing	Powder coated 9016 Traffic White
4	130 Preheating Furnace shell assembly	Compatible with 130mm outer diameter quartz tube Q235	2 sets of sheet metal processing	Powder coated 9016 Traffic White
5	quartz tubes 130 water-	Ø130mm outer	Two quartz crystals, estimated length 3000mm	
6	cooled Flange assembly	diameter, compatible with 130mm outer diameter SUS 304 quartz tubes	4 sets	
7	30 flange Group	Compatible with 30mm outer diameter SUS 304 quartz tubes (4 sets)		
	Item			
8	rail slider, 3500mm length; slide rail/equipped with 8 sliders piece		SUJ2	4 sets
9	Vacuum Pumps			2 units
10.	Thermocouples	K type		8 sticks
11.	Touchscreen screen box and mounting bracket: Kunlun Tongtai has two mountable profiles.			
12	temperature controllers (8 units)	Yu Dian		
13	Filters (2 units)			
14.	One chiller with a pressure compressor			
15	PLC module independent electrical box, Siemens S7-200 base	Basic version, 24-volt power supply, etc.		2 sets of dimensions based on bracket width Designed to facilitate suspension Hang and install on the upper and lower right sides Place one set on each side
16	Pressure gauges		2	
17	Angle valve, 18		4 stainless steel	
	Belows, KF25 interface connection, matching clip.	hoop		The length of the two pieces depends on their height from the ground. Principle of Proximity

11 Panels 1750x700x2 (Length x Width x Thickness) SUS 304 10 Profile Brackets 3500x700x2300	6	
(Length x Width x Thickness)		A6063-T5 1 set, one furnace on each of the upper and lower levels.
(High) 11 Tank chains are used in conjunction with the furnace for sliding.	2 roots
